

Final Round Tee Time Plan – Single Tee Start

Single Tee Start – Two Flights – Lead Groups in First Flight

Final Round Pairing Plan: For the Final Round, the top 50% of the field, and ties (Flight A), will tee off first, followed by the remainder of the field (Flight B).

Final Round Inclement Weather Policy: If inclement weather forces us to shorten play, the tournament will be considered complete if all players in Flight A complete a stipulated round (9 or 18 holes for 18-hole players) in accordance with the World Championship Rules & Regulations. All players in Flight B must finish all holes for Flight B's Final Round scores to count towards the event. If the Championship is not played to completion, then Flight A and Flight B are considered separate tournaments. The goal of the Final Round pairing plan is to identify a champion after three complete rounds. The policy is in place in case the weather forces us to not be able to complete the final round for all players due to afternoon storms, which frequently occur that time of year.

Note: For Girls 13 and Girls 14 at Pine Needles, the Girls 13 and Girls 14 A Flights will go off first on Saturday morning, followed by the Girls 13 and Girls 14 B Flights.
