TOUR TUSCIA 13 or 14 OTTOBRE 2022:

The tour in Tuscia makes you discover some fascinating features of the area north of Terre dei Consoli; an area that has also given its name to Tuscany.

We will start from the town of Bracciano by visiting the majestic Odescalchi Castle of Bracciano built in 1485 and one of the most beautiful and impressive Renaissance residences in Europe. Due to its strategic position, it has often been at the centre of noteworthy events throughout history. You will be able to admire the breathtaking view of the underlying Bracciano Lake, discover the secrets of the castle and visit the decorated and furnished rooms well preserved over time, the rich collection of Italian weapons from the fourteenth to the seventeenth century, the external courts and the great court of honour with its arcades, patrol walkways and the old fortress, a quadrangular structure that was used as a prison, and the kitchens.

From the castle, we continue to a village festival in Manziana only 10 minutes by car from Bracciano. October is the period of chestnuts which are cooked in the huge brazier on the fire and served together with local food products. The event will be animated by street artists. For a moment you will enter the authentic atmosphere of the Roman Tuscia.

Tour details :

Guided tour of the Odescalchi Castle
